How does it work? Here's an inside look at how our team works with you:

1

Intake Review. An administrator uploads documents and assists in ordering title, FHA case number, and appraisal services.

2

Processing Review & Submission. A processor collects any and all remaining items needed—and reaches out if they need anything from you or your borrower to close the loan.

3

Initial Approval. The underwriter issues approval. The processor then begins working to clear loan conditions.

4

Clear to Close. A processor prepares closing worksheets and coordinates the signing appointment.

5

Closing & Funding. The Longbridge closing team works with you to prepare the HUD-1/closing package.

From intake to closing, our team of reverse mortgage professionals is here and ready to help you process your loans—with the exceptional service you've come to expect from Longbridge.
